

GUARD-DOGS[®]
AGGRESSIVE EYEWEAR

Designers of the first removable goggle seal for sunglasses

High speed eyewear experts

Innovators of unique eyewear designs

Prescription eyewear specialists

Guard-Dogs, Aggressive Eyewear is a company that has combined over 40 years of experience in the eyewear industry, with a strong background in the engineering of protective eyewear, which provides an extra measure of safety. Our mission is to develop new and innovative eyewear styles, that focus on quality, strength and durability, with a major emphasis on high speed protection. We stand behind our products with a lifetime warranty, because we are confident that our products can stand the tests of time.

BEHIND THE LENS

Polycarbonate lenses are always our first choice for safety, reliability and impact resistance. You can count on them! Scratch resistant, hard coatings help protect your lenses against wear and tear. All Guard-Dogs lenses exceed the ANSI-Z87.1 standard for safety. FogStopper™, our exclusive anti-fog coating, helps to dissipate moisture build up on the inside of your lenses in challenging conditions. A variety of different tints are offered in every line for different light and weather conditions. Guard-Dogs provides for all your high speed needs.

-  **CLEAR:** #1 Selected Night Lens. Good for overcast days. Recommended use, Motorcycle, Tactical and Safety.
-  **CHANGERS:** 24/7 Photochromic Lens Powered by NXT. Transitions from Clear to Dark Grey in 60 seconds in full sunlight. Light range: 80% Clear - 18% Gray. Recommended use, Motorcycle, Tactical and Safety.
-  **PLUM MIRROR:** Day Tint, great full sun to variable light lens. Silver Mirror coating aids in reducing glare. Plum tint balances changing light conditions for better visibility. Recommended use, Motorcycle, Snow and Marine.
-  **AMBER:** Day Tint, low light to bright. High contrast Amber lens intensifies colors and adds definition to flat light conditions. Recommended use, Snow. Seasonal Availability.
-  **SMOKE:** #1 Selected Day Lens. Best used as a sunny day lens. Keeps colors neutral and true. Recommended use, Motorcycle, Casual, Tactical and Outdoor Safety.
-  **GOLDEN:** Night, overcast. A great tint for fog or rain, detailer lens, also known as a "shooters" lens. Brightens up a dull, flat light day. Recommended use, Motorcycle, Snow, Tactical, and Safety.
-  **STEEL MIRROR:** Day Tint, great in full sun. A Dark Smoke tint with Silver Mirror coating aids in reducing glare. it is our darkest lens. Keeps colors neutral and true. Recommended use, Motorcycle, Casual and Outdoor Safety.
-  **CHEATERS:** Bi-Focal in the bottom, non-prescription in the top. Available in +1.50, +2.00, +2.50, Clear & Smoke. These are stock lenses, AKA Readers, no Rx required.

RX-ABLES™

Customized Prescription Eyewear...

We are the High-Speed Prescription Eyewear Specialists! We guarantee your prescription to be done correctly to the information provided by your eyecare professional.

Prescription Options Available For:

Sidecars Sunglasses II, III & IV, with or without Goggle-It Seal, Flexor I & II, Evader I, Terminator, DustBuster I & II and Purebreds Xtreme with V.4 Insert. We also offer 3 styles of goggles to wear over your existing prescription glasses. Check out our Over-Rx Line starting on page 13.

You will need a signed and dated prescription by your eyecare professional. This can either be on our order form or their prescription paperwork. Due to the exact nature of prescription lenses, we ask that you call or email us for complete details. PD (Pupillary Distance) is required to fill all Prescriptions. Call Toll Free: 800.727.3647 Email Us: 1custvs@guard-dogs.com

PRESCRIPTIONS

Options for Single Vision & Lined Bi-Focals:

- Interchangeable Lenses: Available in Sidecars IV Convertibles
- Polycarbonate Lenses: Always our first choice, never an additional cost.
- Polarized: Brown or Grey.
- Transitions® Lenses: Photochromic Lenses go from Clear to Grey with UV exposure.
- Silver Mirror Coating: Heavy, Medium or Flash. Custom colors available, just ask!
- Custom Tints: Name the shade and we'll make it!
- Anti-Reflective Coating: Eliminates reflections on the backside of the lens.
- TriFocal: If you need it, we can do it. Call for quotes.

Prescriptions outside of the above limitations may be possible. For assessment by our Lab, please contact our Rx-Ables Department at 800.727.3647 or email us at 1custvs@guard-dogs.com. Due to other restrictions, certain prescriptions within the above limitations may be unfillable in our eyewear. If you have questions about your specific prescription, please call us for assistance.

Limited Lifetime Warranty:

We are so confident with the construction of our products that we can offer a Limited Lifetime Warranty. We extended the Standard 1 year warranty offered in the industry to lifetime on breakage of frames, lens(es) or leashes due to manufacturer defects. The breakdown of foam is covered by replacement foam kits. We will also repair foam at no charge, shipping charges will apply. Scratched lenses are not covered, but replacement lenses are available. All warranty inquiries need to be sent to us directly. We do not reimburse or replace items given away for warranty issues. Abuse, accidents, animal chew marks, theft or industrial use applications are not covered. Contact us at 805.642.0499 or www.guard-dogs.com
